

COMPANY PROFILE

DELIVERY & CAPABILITY PRESENTATION

Consulting-led technology and infrastructure solutions

Enterprise IT • Data Centre • Lifecycle Services

DELIVERING • ENABLING • EMPOWERING

Technology Solutions for Today • Infrastructure for Tomorrow

CONSULTING-LED SOLUTIONS

ITPF Technology is a **consulting-led technology and infrastructure solutions company** helping organizations modernize, secure and scale their **IT, Data Centre and Critical Power environments**.

FUTURE-READY EXPERTISE

We design, implement and support **future-ready solutions** across **Cloud, Data, Edge and Enterprise IT**, complemented by **Data Centre infrastructure** expertise.

SECURE & RESILIENT INFRASTRUCTURE

By combining strategic **consulting, technology** expertise and lifecycle services, we deliver secure, scalable and **resilient infrastructure** that improves efficiency, availability and business continuity.

YEARS OF EXPERIENCE **7+**

CUSTOMERS SERVED **100+**

SUPPORT

SERVICE DELIVERY & FIELD SUPPORT

From Deployment to On-Site Support

DEPLOYMENT SERVICES

Device Installation & Deployment

Professional installation and deployment of client devices for readiness and reliability.

Device Migration & Transition

Seamless migration of devices and data with minimal business disruption.

Network Equipment Refresh

Upgrade and refresh network infrastructure to improve performance and security.

END-TO-END FIELD SERVICES

Deploy • Migrate
Maintain • Support

SUPPORT SERVICES

On-Site Technical Support

Expert engineers on-site to resolve issues and ensure smooth operations.

Break-Fix Support

Rapid issue diagnosis and resolution to restore normal service quickly.

Backup Engineer Coverage

On-demand backup engineer support for continuous coverage.

IT INFRASTRUCTURE SUPPORT

Reliable Support • Proactive Care • Maximum Performance

Desktop Support

- ✓ OS & Application Support
- ✓ Performance Optimization
- ✓ Troubleshooting & Issue Resolution
- ✓ Hardware Support

Laptop Support

- ✓ System & Software Support
- ✓ Driver & Update Management
- ✓ Performance Optimization
- ✓ Hardware Diagnostics

Printer Support

- ✓ Installation & Configuration
- ✓ Connectivity Support
- ✓ Print Quality Optimization
- ✓ Maintenance & Troubleshooting

Server Support

- ✓ Server Monitoring & Management
- ✓ Performance Tuning
- ✓ Security & Access Control
- ✓ Backup & Disaster Recovery

Storage Support

- ✓ Storage Monitoring
- ✓ Capacity Management
- ✓ Data Protection
- ✓ Backup & Recovery Support

Network Support

- ✓ Network Monitoring
- ✓ Connectivity & Wi-Fi Support
- ✓ Firewall & Security Management
- ✓ Fault Resolution & Optimization

DATA CENTRE INFRASTRUCTURE SUPPORT

24x7 Availability • Proactive Maintenance • Maximum Uptime

BMS Support

- BMS Monitoring & Management
- Alarm & Event Monitoring
- Sensor & Controller Support
- System Integration
- Preventive Maintenance & Troubleshooting

Electrical Support

- LT Panels & Power Distribution
- DG & AMF Systems
- ATS / STS Support
- PDU & RPP Management
- Earthing & Electrical Safety

UPS Support

- UPS Health Monitoring
- Battery Bank Monitoring
- Load & Capacity Management
- Preventive Maintenance
- Breakdown & Emergency Support

HVAC / PAC Support

- Precision AC / PAC Support
- Temperature & Humidity Control
- Cooling Performance Monitoring
- Filter, Fan & Compressor Support
- Breakdown & Emergency Support

WLD Support

- WLD System Monitoring
- Sensor & Cable Testing
- Zone & Alarm Monitoring
- Leak Identification & Troubleshooting
- Preventive Maintenance

Rodent Control Support

- Rodent Repellent System Monitoring
- Controller & Sensor Checks
- Zone & Cable Inspection
- System Testing
- Preventive Maintenance

Fire & Safety Support

- Fire Alarm System Support
- VESDA Support
- Smoke & Heat Detector Testing
- Gas Suppression System
- Testing & Preventive Maintenance
